

DATE	DAY	TIME/ ROOM	SPEAKER	TITLE
1/23/12	Mon.	12PM/ 444B	Wesley Thompson, Ph.D. (Host: Dr. Eaton) Professor Center for Cellular & Molecular Biology University of Texas Austin	“The aging phenotype of the neuromuscular junction: A consequence of muscle fiber damage?”
1/30/12	Mon.	12PM/ 444B	TBA	
2/13/12	Mon.	12PM/ 444B	Greg M. Cole, Ph.D. (Host: Dr. Oddo) Professor Medicine and Neurology Associate Director, UCLA Alzheimer’s Center Associate Director, Research at the Geriatric Research, Education and Clinical Center University of Southern California Los Angeles	“Alzheimer's Disease Prevention vs Treatment: Methods and Mechanisms”
2/20/12	Mon.	12PM/ 444B	TBA	
3/12/12	Mon.	12PM/ 444B	Frank Schroeder, Ph.D. (Host: Dr. Rea) Assistant Professor Department of Chemistry and Chemical Biology Cornell University	“C. elegans as a model organism for the study of small molecule signaling”
3/19/12	Mon.	12PM/ 444B	Eliezer Masliah, Ph.D. (Host: Dr. Oddo) Professor Department of Pathology and Medicine University of California San Diego	“Prion-like propagation of proteins in neurodegenerative disorders; potential role for immunotherapy”
3/26/12	Mon.	12PM/ 444B	Walter Boron, Ph.D. (Host: Dr. Stockand) Professor and Chair Department of Physiology and Biophysics Case Western Reserve University	“Gas channels”
4/2/12	Mon.	12PM/ 444B	Luis Fernando Santana, Ph.D. (Host: Dr. Shapiro) Professor Department of Physiology & Biophysics University of Washington	“Calcium signaling amplification by oligomerization of L-type CaV1.2 channels”
4/16/12	Mon.	12PM/ 444B	Jose Moron-Concepcion, Ph.D, (Host: Dr. Daws) Assistant Professor Department of Anesthesiology Columbia University	“Learning to be an opioid addict: Implications for pain management”
4/30/12	Mon.	12PM/ 444B	David Rossi, Ph.D. (Host: Dr. Kim) Assistant Professor Department of Behavioral Neurosciences Oregon Health and Sciences University	“Novel mechanisms of ischemic damage and neuroprotection in the cerebellum”
5/7/12	Mon.	12PM/ 444B	TBA
