

Physiology Seminar Series

Spring 2004

The University of Texas Health Science Center at San Antonio
Graduate School of Biomedical Sciences, Department of Physiology

Monday, January 12

David Yue, M.D., Ph.D.
John Hopkins School of Medicine
Professor
Department of Biomedical Engineering
"Calmodulin Regulation of Voltage-Gated Calcium Channels and Beyond"

Monday, January 26

Cecila Canessa, Ph.D.
Yale University
Assistant Professor, Department of Cellular and Molecular Physiology
"Regulation of ENaC by the Kinase sgk1"

Monday, February 2

Anthony Persechini, Ph.D.
University of Missouri -Kansas City
Associate Professor & Interim Division Head
Division of Molecular Biology & Biochemistry
"Coordination of Ca²⁺ -Dependent Processes in the Cell via Calmodulin"

Monday, February 9

Scott Pletcher, Ph.D.
Baylor College of Medicine
Assistant Professor
Department of Molecular and Human Genetics and Huffington Center on Aging
"Diet, Death and Demography in Drosophila"

Monday, February 23

Mark Dell'Acqua, Ph.D.
University of Colorado
Assistant Professor
Department of Pharmacology
"Kinase and Phosphatase Scaffold Proteins in Synaptic Plasticity: Visualization with AKAP79"

Monday, March 1

Steven Treistman, Ph.D.
University of Massachusetts Medical School
Professor and Vice Chair
Department of Neurobiology
"Acute and Chronic Alcohol: How the Brain Responds and Adapts"

Monday, March 8

Lisa Satlin, M.D.
Mount Sinai School of Medicine
Professor, Department of Pediatrics
Associate Professor, Department of Medicine
"Regulation of Ion Transport in the Distal Nephron by Axial Flow"

Monday, March 29

Dan Cox, Ph.D.
Tufts-New England Medical Center
Assistant Professor
Molecular Cardiology Research Institute
"Studies on the Ca²⁺ Sensitivity of the BKCa Channel"

Monday, April 5

Louis Luttrell, Ph.D.
Duke University
Associate Professor
Department of Medicine, Division of Endocrinology, Metabolism & Nutrition
"Novel G protein-Coupled Receptor Signals Controlling Gene Expression and Cell Growth"

Monday, April 12

Ehud Isacoff, Ph.D.
Berkeley, University of California
Professor
Department of Molecular & Cell Biology
"The Protein Motions of Voltage-Gated Ion Channels"

Monday, April 26

Douglas Seals, Ph.D.
University of Colorado
Professor
Department of Integrative Physiology
"Chronic Sympathetic Activation: Consequence and Cause of Age-Associated Obesity?"

MONDAY SEMINARS 12:00 – 1:00 PM*

LECTURE HALL 444B*

*(unless otherwise noted)
